Barrackpore AB Model High School [2017-2018]	Secondary(10TH)	Scored 69%

WORK EXPERIENCE

Front-End Developer at [Bestman Exceed Softwares LLP](#) [Feb 2025 - Present]

- Redesigned the **ExceedHMS** Website for better **user engagement** and to provide a better, modern, and clean UI to the visitors
- Worked on the Website booking engine and Guest self-ordering app redesign and development for a **modern and slick UI** and **UX** for the **Hotel Management Software** itself.

Web Developer at [Edominer Systems PVT LTD](#) [July 2024 - Dec 2024]

- Developed and optimized features for [expanderp.com](#), a website to showcase the comprehensive ERP software, focusing on system functionality and **user experience (UX)**.
- Developed and enhanced **vendor and dealer portals** by **implementing new features** and **improving functionalities**, resulting in a **20% boost** in portal performance and a **15% reduction in system bugs**.

Web Developer intern at [Technosoft Academy](#) [Jan 2024 - July 2024]

- Developed and maintained [internship4you.com](#) using **HTML5, CSS3, JavaScript, Bootstrap, PHP, and MySQL**, showcasing expertise in **full-stack development**.

PROJECTS

[Expandsm ERP Software](#)

- Contributed to the development of the [Expanderp](#), an ERP solution for efficient business management.
- Revamped the **ERP software** with a **modernized user interface and enhanced UX features**, improving **overall system efficiency** and streamlining data management processes.

[Exceed Guest Self Ordering app](#)

- Developed the **Exceed guest self-ordering app**, where guests can view the hotel's menu list, add items to the cart, and check out with the order online with just one app.

[Booking Engine & Extranet](#)

- Building a **scalable booking engine** enabling travellers to **search, view, and book hotels**, integrated with a **robust backend (Node.js, Express.js)** and a modern **frontend stack (Angular 19, PrimeNG, Bootstrap 5)** powered by **MongoDB** for efficient **data management**.
- Developing an intuitive **extranet** where property owners can seamlessly **list their properties, define room categories, configure room rates, and manage rate plans** with full **flexibility**.
- Implemented **user registration, login, and role-based access control with JWT token validation** to ensure **data security** and **controlled user access**.

More projects are listed on my [portfolio](#)
